INTRODUCTION

About This Document

This User Guide details how to use Lightspeed Web. It describes various components and windows of the platform and explains their purpose and functionality, defines and explains procedures for trading, and highlights some ways to personalize the platform. Please note that all information provided in this document is subject to updates by Lime Brokerage.

Platform Navigation

Getting Started

To access Lightspeed Web point your browser at the URL:
<https://secure.lightspeed.com/> and enter your login credentials.

The screenshot shows a web browser window with the URL <https://secure.lightspeed.com>. The page features the Lightspeed logo and a navigation menu with links for Brokerage Services, Technology, Pricing, New Clients, and Resources. The main heading is "Secure Login". Below this, there is a text prompt: "Lightspeed customers, please enter your username and password. To open an account or continue an online account application, please [click here](#)". There are two input fields: "User Name" and "Password", each with a yellow icon on the left and a "Show" button on the right. Below the "Password" field is a "Forgot Password?" link and a yellow "Log On" button. At the bottom of the page, there is a small disclaimer: "This is provided for informational purposes only and should not be regarded as an offer to sell or as a solicitation to buy any product or as an offer to participate in any particular trading strategy to which this information relates. Day trading generally is not appropriate for someone of limited resources and limited investment or trading experience and low risk tolerance. You should be prepared to lose all of the funds that you use for day trading. Day trading requires in-depth knowledge of the securities markets and trading techniques and strategies. You should have appropriate experience prior to engaging in day trading. Market volatility and volume may delay system access and trade execution. This information is obtained from sources believed to be reliable, but we do not represent that it is complete or accurate and should not be relied upon as such. Opinions expressed herein are subject to change without notice. Past performance is not indicative of future results. This information does not replace or supersede your normal trade confirmations or your client statement, provided through the courtesy of Lime Brokerage, LLC. This information is subject to daily market fluctuation and is not intended for tax purposes. Member SIPC. System response and account access times may vary due to a variety of factors, including trading volumes, market conditions, system performance, and other factors. Securities executed through Lime Brokerage LLC (Member FINRA, SIPC)." data-bbox="260 560 825 600"/>

Upon successful log in, you will see “My Platforms” and a link to Lightspeed Web. Click the link and you will be redirected to the trading platform.

Platform Navigation

Dashboard

When you first log in to Lightspeed Web you will see the default layout:

A The very top section of the screen is the status bar that shows the status of the market (Open, Close, Pre Market or After-Hours), status of server connections, the status of quotes (real-time or delayed), quotes on major U.S. indices, your user ID and account(s) associated with it, key account metrics (Account Value, Value of All Positions and Buying Power), and several buttons for settings and platform navigation.

B Underneath the status bar is the marquee bar which can display Positions, Watchlist of % Risers, % Fallers, Net Risers, and Net Fallers.

C Underneath the marquee bar is the tabs bar which allows you to add or remove tabs, and fill each tab with widgets of your choice using the "Add Widget" dropdown menu.

Platform Navigation

Icons & Symbols

Lightspeed Web has several icons and symbols for navigating the platform and personalizing the layout. Several buttons that are grouped in the top right corner of the platform are described in the next section. Other buttons that show up throughout the platform are described in the table below.

ICON	NAME	NAME
	Log Off	Sign out from your Lightspeed Web & Mobile account
	Settings	Edit and make changes to the platform interface (ex: account, trading accounts, layout settings, personalization)
	Tab Settings	Add more tabs, name/rename tabs and delete tabs
	Widget Settings	Enable you to edit and customize the widget (settings differ from one widget to another)
	Add Tab	Enables you to add extra tabs to the platform
	Manage Columns	Enables you to select the columns you want to keep and remove in widgets
	Create New Watchlist	Enable you to create and add new Watchlists
	Delete Current Watchlist	Enables you to delete current Watchlist
	Marquee Settings	Enables you to edit the display of real-time quotes of securities
	Pinned Header Panel	Enables you to pin header panel (Marquee listing and widget panel)
	Unpinned Header panel	Enables you to unpin header panel (Marquee listing and widget panel)
	Locked Layout	Enables you to lock your last update layout. When you lock your layout, you cannot add and/or delete any of the changes made
	Unlocked Layout	Enables you to unlock your layout and make edits by adding, deleting and relocating the widgets within the platform
	Help Button	Enables you to report any question, feedback about the platform
	Language	Enables you to change the language of the platform features
	Group	Enables you to assign widgets to the same color group so you can connect all widgets together by one click
	Maximize	Maximize the widget window

Platform Navigation

Platform-level Setting & Layout Control Tools

The top-right corner of the Lightspeed Web contains several important navigational and settings related buttons:

- A** Send Message to Support or click on a web link to a user guide or video
- B** Send a message to support
- C** Change Platforms Language (English, Russian, Chinese or Taiwanese)
- D** Log Out
- E** Pin Header Panel
- F** Lock Layout (Hides close window buttons and Add Widget dropdown menu)
- G** User Settings (See more in the next subsection)

Platform Navigation

User Settings

User Settings button enables you to customize your layout. If you click on the settings wheel button, a window with five tabs will popup.

Profile Tab

Allows you to modify the Time zone and update personal settings.

Platform Navigation

User Settings (cont'd)

Trading Accounts Tab

Allows you to edit how the account is displayed on the status bar.

Trading Tab

Allows you to edit how the account is displayed on the status bar.

Default Order section allows setting default order type (Market, Limit, Stop, Stop Limit), order duration or TIF(Time in Force) with DAY and GTC options.

Default Quantity section allows to set default number of shares for stock orders and default number of contracts for option orders.

Quick Trading has Price Increment Multiplier where you can modify the price on open orders by clicking the scroller next to the limit or stop price. In the order verification window that will pop-up, the new price will differ from the original one by the \$0.01 times the multiplier. If your multiplier is 75, the new price will differ by \$0.75.

Platform Navigation

User Settings (cont'd)

Layout Settings

Allows you to customize several of your platform's behaviors and color schemes.

Marque Section hides marquee bar.

Current Color Scheme allows you to choose between dark or light color scheme

Accent Color customizes the color of the widget header bars

Behavior allows you to enable or disable confirmation popups when tabs and widgets are added or removed, and to enable or disable autorenewal of the session (if it is disabled, the session will be active for 30 minutes, after which it will shut down unless you choose to renew it by clicking "ok" on the popup window).

Notifications Tab

Allows you to add a picture to your user profile.

Platform Navigation

Marquee Settings

Lightspeed Web's Marquee streams security information in the most flexible real-time quote displays. With Lightspeed Web's Marquee, you can combine real-time data of securities in a variety of customizable displays. The content of Marquee can be customized in three different models.

Positions: Marquee that shows updated quotes of current positions.

Watchlist: Marquee that shows updated quotes of current Risers and Fallers.

Custom: Customize marquee that shows updated quotes of your specifically preferred symbols.

Platform Navigation

Tabs

Lightspeed Web interface is designed to make it easy for users to find features, place and organize widgets as they want. Each tab is customizable and can contain any component the user chooses from our widget list. By scrolling the drop-down menu of "Add Widget", click on the picked widget and it will be automatically added to the tab menu. You can also create and add extra tabs and label them to break down your trading tasks into simple actions.

Platform Navigation

Link Settings

Lightspeed Web allows you to link widgets by color such as news, charts, stock info and more to make your terminal more practical and efficient. To link windows on your screen change the link box on each widget you would like to link to the same color. After linking windows to a watchlist, you can easily click a symbol in the watchlist, and every window linked by that color will change to the same symbol. You can also link other windows on your layout by changing their link box to a different color.

The screenshot displays the Lightspeed Web trading platform interface. At the top, the 'Live' status is shown with 'Market: Open'. A table of market data includes symbols like AAPL, BAC, NKE, AMZN, and INTC. The main area is divided into several panels:

- Watchlist:** A table with columns for Symbol, Price, Last, Bid, Ask, Change %, and Volume. The symbol SIRI is highlighted in red.
- Order Ticket:** A panel for entering orders, showing fields for Symbol (SIRI), Shares (100), Exchange (SMART), Order Type (Market), and Duration (Day). It includes 'Buy' and 'Sell' buttons.
- Chart:** A candlestick chart for SIRI - SIRIUS XM HLDGS INC, showing price movement over time. The current price is 6.09.
- Orders:** A panel showing order status, with a table listing orders for SIRI, Buy, Limit, Quantity -100, and Limit 5.90.
- Positions:** A panel showing the current position for SIRI, with a table listing Symbol, Company Name, Change, Change %, Bid, Ask, Last, and P.

A yellow line with a yellow square at the end points from the SIRI symbol in the watchlist to the SIRI symbol in the Order Ticket and Positions panels, illustrating the linking functionality.

Widgets

Lightspeed Web comes with a variety of widgets that you can use to get the most productive trading experience. The goal behind the "Add Widget" tab is to make sure there is a place where you could always have easy access to all trading tools. Lightspeed Web's widgets appear on the right-hand side of the platform and are always there no matter what tab you are on. If you don't want them taking up space, you can always collapse them by clicking "Lock Layout".

Unlocked Layout Mod:

Green highlights are accessible in this mode to add, move, and delete widgets as well as add, rename, and remove tabs

Locked Layout Mod:

Following Options are hidden/disabled

- add and delete widgets
- move and resize widgets
- add, rename, and delete tabs

The screenshot displays the Lightspeed Web trading interface in the Unlocked Layout Mod. The top navigation bar shows the 'Live' status and various market data. The main area is divided into several sections: a 'STOCKS' tab, a 'Watchlist' table, an 'Order Ticket' panel, and an 'Account Info' panel. A yellow box highlights the 'Add Widget' button in the top right corner. Another yellow box highlights the 'Order Ticket' and 'Account Info' panels on the right side of the screen.

Symbol	Price	Last	Bid	Ask	Change %	Volume
ABMD	269.11	269.11	269.03	269.23	1.68	165,995

Symbol	Last	Change	Bid	Ask	Volume
AAPL	207.71	-1.13	207.70	207.72	8,301.1

Account Info

Lightspeed Web's account information is designed to display the user's real-time information about all trading activities, account value, buying power and more.

Account Info	
Balance	Info
Account Value	0.00
Net Liquidation Value	0.00
Gross Position Value (GPV)	0.00
Long Stocks	0.00
Short Stocks	0.00
Long Options	0.00
Short Options	0.00
Buying Power	0.00
Day Open P/L	0.00
Realized P/L	0.00

Alerts

Alerts Widget is used to set Stock and Option alerts based on price to signal when a certain price has been reached.

The screenshot shows the Alerts widget interface. At the top, there's a header with 'Lightspeed Live' and 'Market: Pre-Market Trading'. Below that, there are status indicators for 'Trade Data: connected' and 'Quote Data: connected', and 'Market Data: realtime'. A row of stock prices is displayed: AAPL 208.67 0.48 (0.23%) ↑, BAC 30.67 -0.08 (-0.26%) ↓, NKE 86.70 0.00 (0.00%) ↑, AMZN 2,000.81 2.34 (0.12%) ↑, and INTC 52.92 -0.21 (-0.40%) ↓. The main area is titled 'Alerts' and has an 'Add' button highlighted with a yellow box. Below the 'Add' button is a table with columns: Id, Status, Created, Condition, Symbol, Type, and Value. The table is empty with the text 'No data available in table'. A yellow arrow points from the 'Add' button to a text box that says 'Click on Add Button to Pop-up New Alert box to create new Stock Alert'. A 'New alert' dialog box is open, showing fields for 'Symbol', 'Type' (set to 'Last'), 'Condition' (set to '<='), 'Value' (set to '0.01'), and 'Expiration' (set to '07/26/2019 08:31:53'). The dialog box has 'Add' and 'Cancel' buttons.

Widgets

Charts

Open Chart from Add Widgets function to pull up a basic chart where you can enter basic chart parameters such as symbol, time period and chart type.

Chart Settings

A Time Frame: You can change and choose the time frame of the chart.

B Chart Type: To view the market from nearly every conceivable angle, Lightspeed Web offers different chart types that stream up-to-date data. You can choose from the following different types:

- Area
- Candle
- Sticks
- Bar
- Line
- OHLC (open-high-low-close)
- Table

C Indicator: Scroll down to choose the technical indicators you need to use.

D Compare: Compare the performance of different ticker symbols.

E Fold & Unfold: Fold and unfold the chart menu items.

Charts (cont'd)

Geometrics (Drawing Tools)

The drawing tools can be accessed through the Geometrics menu which allows the user to select from several different drawing tools. Drawing tools overlap the price data and can be used to mark the charting area to help you find trends or note support and resistance levels in stock prices. Fibonacci, trend lines, support or resistance (price range) and text notes are a few available.

Widgets

Charts (cont'd)

Edit Chart Settings

Click the Settings gear  within the chart to pop-out settings boxes to adjust colors, edit and personalize your charts.

Option Chain

View and monitor option contracts through Option Chain widget.

Orders (cont'd)

Orders Ticket

Place Equity trades through the Order Ticket widget. To place an order, you need to enter the symbol name, number of shares, the exchange (Default always SMART), order type (Market, Limit, Stop, Stop Limit), Duration (Day, GTC) and Session (Regular or Extended).

The Order Ticket widget is a dark-themed interface for placing trades. It features several input fields and buttons:

- Symbol:** A text box containing 'AAPL' with a play button to its right.
- Shares:** A numeric input field containing '100'.
- Exchange:** A dropdown menu set to 'SMART'.
- Order Type:** A dropdown menu set to 'Market'.
- Duration:** A dropdown menu set to 'Day'.
- Session:** A dropdown menu set to 'Regular'.
- Buttons:** A green 'Buy' button and a red 'Sell' button.
- Table:** A table showing market data for AAPL.

Symbol	Last	Change	Bid	Ask	Volume
AAPL	207.83	0.81 ▲	207.83	207.84	10,687,414

Order Creation

There are multiple ways to create an order on Lightspeed Web:

Clicking on the symbol or price in various widgets: Orders, Positions, Watchlist, Market Depth, etc. or from the Chart, when Trade Ticket appears as a pop-up window.

Directly from Trade ticket widget that is already added to the tab.

This screenshot illustrates three methods for opening an Order Ticket widget:

- Click Price:** A yellow arrow points to the price '208.45' in a table, with the text 'Click Price opens Order ticket'.
- Double click chart:** A yellow arrow points to a candlestick chart, with the text 'Double click chart opens Order ticket'.
- Click on open Position:** A yellow arrow points to a 'Positions' table, with the text 'Click on open Position opens Order Ticket'.

The Order Ticket widget is shown as a pop-up window with the following details:

- Symbol:** AAPL
- Shares:** 100
- Exchange:** SMART
- Order Type:** Limit price
- Limit price:** 208.46
- Duration:** Day
- Session:** Regular
- Buttons:** Buy, Sell
- Table:**

Symbol	Last	Change	Bid	Ask	Volume
AAPL	208.45	-0.39 ▼	208.45	208.47	11,520,411

Widgets

Positions

Positions Widget is used to monitor current positions. Users can manage the components they want to see in their position widget. Manage column button enables you to choose which columns you want to display in the widget, same as in Orders widget.

The screenshot shows the 'Positions' widget interface. A table displays various stock positions with columns for Symbol, Company Name, Change, and Change %. A dropdown menu is open, allowing users to select or unselect columns. The table data is as follows:

Symbol	Company Name	Change	Change %
WA		0.00	0.00
WN		0.00	0.00
AA	PLE INC	-0.26	-0.17
AD	BOE SYS INC	1.00	0.67
AM	AZON COM INC	-8.20	-0.80
AN	GLOBAL X FDS-ANDEAN 40 ETF	0.00	0.00
BA	AMER CORP	-0.11	-0.46
FB	FACEBOOK INC	-0.53	-0.32
GO	ALPHABET INC	-2.64	-0.27
GR	GOUGON INC	-0.07	-1.83
JPN	MORGAN CHASE & CO	-0.30	-0.33
NG	NAVIGOLD RES INC	0.00	0.00
NK	KE INC	-0.15	-0.25
PRC	OS HOLDINGS INC	0.00	0.00

Security Info

Provides detailed info about the selected symbol.

The screenshot shows the 'Security Info' widget for symbol 'C'. It displays a table of market data:

Field	Value
Last	75.01
Last Size	100
Change	-0.66
Change %	-0.87

Dividend Yield	0.00
Earnings Per Share	5.19
P/E	0.00
Market capitalization	0
Open interest	0
Avg Daily Volume	-
Timestamp	11:03:57

Watchlist

Lightspeed Web watchlist is designed to be sortable and help traders view the market and make decisions quicker. You can create your watch list based on grouping of stocks you would like to see in one view. The images below show some basic functions of the Watchlist window.
